

Condor booking guide.

NON-IATA: Bookings through Condor Extranet:

web-based booking engine through which Non-IATA sales of Condor flights and ancillaries can easily be processed under the dedicated partner agency account. The Extranet also serves our partners as perfect B2B information tool which is accessible 24/7. Simply go to agent.condor.com and register.

NON-IATA: bookings through AirCenter 7 (AC7):

web-based booking platform for non-IATA sales of Condor flights under the dedicated partner agency account. Through this platform partner agencies can also perform post-sales transactions.

Non-IATA: Bookings through API NDC connection:

As a bi-laterally contracted agent you can get connected directly or via an aggregator to our NDC content through our API interface. NDC is the latest technology based on the global industry standard. We work closely together with several leading aggregators, such as Travelfusion, Pyton, Paxport, Peakwork or Hitchhiker.

IATA: Bookings through GDS: As an accredited IATA agency you have access to our Condor content through all major GDS, such as Amadeus, Sabre, Galileo or Worldspan. Condor flights and fares can be issued via 881 Condor carrier plate / ticket stock.
